I've always had a natural curiosity for technology and innovation. I am adaptable, resourceful, and a critical thinking individual with a passion for new technology and highly detailed work. My goal as a software engineer is to continue to grow and develop while keeping a positive attitude and helping those around me. I am looking for a new challenge and believe your organization and I are a great match.

SKILLS
- JavaScript, Python, Express, React, Django, HTML, CSS, EJS
- Bootstrap, Bulma, MongoDB, PostgreSQL, Postman, VSCode, Netlify

EXPERIENCE
Software Engineering Immersive | General Assembly | Remote | December 2021 – March 2022
- Successfully completed 500+ hours of expert led instruction in JavaScript, HTML, and hands on learning of CSS fundamentals and the industry's most in demand technologies. Developed coding projects, including:

- Everything Bob's Burgers: Built using JavaScript, CSS, React Router. This is a React application.
- MyPetPro: Built using Python, Django, PostgreSQL, Bulma. This is a Python application.

Assistant/3D Capturer | Maria Elena Real Estate | Houston | March 2020–Present
- Independently learned how to create a digital copy of properties by scanning homes using a Matterport Camera.
- Label and edit copy of home scan and upload to Matterport Cloud within 2 days, exceeding customer expectations while maintaining open communication to client.
- Problem-solve and troubleshoot any issues that would arise on site pertaining to new technology.

Personal Sabbatical | 2017–2020
- Personal sabbatical due to health and well being.

Assistant to Marketing Director/Intake Specialist | Speights & Worrich Law Firm | San Antonio | October 2014–December 2016
- Analyze an average of 30+ contracts monthly to ensure information is processed and managed accurately.
- Maintain strong communication and create valuable working relationships with 20+ new clients each month.
- Generate and organize new contracts for each individual client and confirm information is accurate while also managing and maintaining past contracts.

Office Assistant | Information Technology Technology Services | San Antonio | August 2010–May 2014
- Interacted with students, faculty, and staff to troubleshoot laptop and Voiceover IP phone problems.
- Answered phones and assisted the university community with technology issues such as: email, Blackboard learning technology, Microsoft Office program functionality and internet connectivity issues.
- Elevated issues to professional staff when appropriate and provided necessary background information to ensure quick solution, all while maintaining excellent customer service.
